**Statement by PNG NRI Acting Director, Dr. Osborne Sanida on the
Release of Bougainville Referendum Research Project Fact Sheets**

The PNG National Research Institute is pleased to announce the release of the first two sets of Fact Sheets under the Bougainville Referendum Research Project (BRRP).

The Fact Sheet is a new publication type that seeks to present the key points from the BRRP's research reports in a clear and concise format so that it can be easily understood by the general public.

The two fact sheets that are now being released provide succinct summaries for the following research reports.

- Research Report 8: Institution Building in Post-Referendum Bougainville; and
- Research Report 9: Increasing Revenues for the Bougainville Government.

The BRRP will also be producing Fact Sheets for the seven previous studies done under the Project.

The Fact Sheets now add to the various other publications done under the Project including:

- Research Reports;
- Issues Papers;
- Briefing Note; and,
- Commentaries.

We hope that the Fact Sheets can be an aid that allows for the quick and easy uptake of key information from our research reports.

These new Fact Sheets and all other publications produced under the BRRP can be found on the PNG NRI website (www.pngnri.org). Additionally, an email can be sent to the BRRP team at referendum.research@pngnri.org for any other information.
